

D.I.Y. Fantasy Terrariums

Supplies You Can Use to Create a Terrarium

- An Open Container
- Pebbles
- Bowls for water and soil
- Potting Soil
- Spoons to scoop out soil
- Chopstick or plastic knife
- Water Bottle to mist your plants, or Dixie cup with water.

Fantasy Theme Ideas

- Colored Gravel, stepping stones, natural rocks
- Unicorns, Monsters, Dinosaurs, Dragons, Gnomes, Fairies
- Mini fence, bridge, fairy-themed door, etc.

Plants Needed:

- Real or Fake Plants (I used real succulents)
- Plant Hormone (Optional but recommended)

Step 1: Line the bottom of your terrarium with **pebbles**.

Step 2: Add a nice layer of **potting soil**. Use a spoon to scoop out and then place into your terrarium. Slightly wet the soil too.

Step 3: Take your plants & wet the bottom the root.

Step 4: Dig a small hole into the potting soil with your finger

Step 5: Dip your succulent into **Take Root** or **Plant Hormone**.

Step 6: Add **Gravel** of your choice: natural, colored or both.

Step 7: **Decorate** with your Fantasy-themed add-ons!

Step 8: Take a **Water Bottle** and lightly mist all objects inside your terrarium.

Step 9: Place in a **sunny** window....keep away from pets!
